SUPPLEMENT TO  
REPORT NO. [ ]

1. A church was about one km from [ ] camp. While riding a truck past this church a noise like that produced by turbines was heard from its interior. [ ] believed that turbine test stands were housed in the church. This assumption was supported by the observation of several pipes about one meter in diameter which projected from the building. The same bluish smoke as that seen near the turbines in Plants No 45 and 165 was noticed.\*

25X1X

2. [ ] a two-wheel cart with a tarpaulin-covered pointed body on it in front of the church door. This body was about 8 meters long and had a diameter of about 1 meter at the rear. Two rectangular wings with a span of about 1½ meters were seen. The wings were set at a point two thirds the length of the fuselage, redoned from the nose.\*\*

25X1

3. [ ] likened this body to that seen in Plant No 165 and expressed the opinion that it was a rocket-driven missile of the kind allegedly seen by some PWs in Plant No 165.

25X1X

- \* [ ] Comment. From the data contained in this report it is inferred that the installation concerned is one of the two plants previously referred to as Plant No 156 and the TsIAM Plant. See [ ] A church between the two plants was mentioned as a conspicuous landmark.

25X1A

25X1A

- \*\* [ ] Comment. The data on the body covered by tarpaulins are rather vague. The statements are believed to be mere speculations.
